About this directory

Need hospital treatment?

Please get in touch before booking anything

We'll confirm which hospital
we can cover.

.

Call us – the number
will be on your membership
information.

What's in this directory?

This is a list of all the hospitals and other facilities that we've assessed and monitor on their quality, value and range of services. For most of our plans and options, you'll need to use a facility in this list.

Can I use any hospital in the directory?

You may be able to choose any on the list, depending on what's wrong and the cover you have.

That's why it's important to get in touch with us when you need treatment, so we can explain which hospital to use.

Why are there different categories for oral or cataract surgery?

We treat oral surgery and cataract surgery slightly differently to other types of operation and you'll need to have your treatment at one of the hospitals that have a pink tick in the right column. It's also worth noting that we only cover certain types of oral surgery – there's more about this in your handbook.

As with any other type of treatment, please get in touch with us and we'll explain how it all works.

What's it like staying in a private hospital?

All the hospitals in the directory will do their best to make your stay as pleasant and comfortable as possible.

You'll usually have your own private room with an en-suite bathroom and television. You'll be given a choice of food for each course at mealtimes, and there's usually more flexibility about visiting times.

About this directory continued

What do I need to take to hospital?

Your hospital will usually send you a list of what to bring, depending on how long you're staying. But please also take along your membership number, which you'll find on any communications we've sent you. You may want to write this down or print it out, as you may not always be able to use your phone.

Does the list change?

We do update the directory from time to time. Occasionally, we remove hospitals from the list too.

Where can I find more information?

Each hospital will usually have its own website with plenty of information about how to get there, parking, what to take and other useful details.

➞ *For up-to-date details on which specialists, hospitals, scanning facilities and other healthcare facilities we cover, please contact our Member Services team.*

Our hospital areas

We've separated the hospitals in this directory into the following areas:

Area 1	Greater London
Area 2	South East
Area 3	South West
Area 4	Midlands West
Area 5	Midlands East
Area 6	North West
Area 7	North East
